Professional Profile

Systems Engineering student with solid knowledge in programming and software development. Passionate about technology, problem-solving, and continuous learning. Experience in developing academic and personal projects using various languages and tools. Seeking an opportunity to apply and strengthen my skills as a developer.

Education

National Institute of Usulután

Industrial Mechanics

2018 - 2020

Systems and Computer Networks Engineering

Gerardo Barrios University | Usulután, El Salvador

January 2023

Technical Skills

- **Programming Languages:** HTML, CSS, JavaScript, PHP.
- **Frameworks:** Bootstrap.
- **Databases:** MariaDB, MongoDB, MySQL.
- **Tools:** Git and GitHub, Visual Studio Code.

Personal Projects

Sivar Tours.

- **Description:** Sivar Tours is a web project focused on promoting tourist destinations in El Salvador. The platform allows viewing detailed information about different tourist places, including descriptions, images, and relevant data for visitors.
- **Technologies:** HTML, CSS, JavaScript, PHP, MySQL (XAMPP).
- **Impact:** Development of web interfaces, management of dynamic content, and integration with databases.

Community Digital Newspaper.

- **Description:** The Community Digital Newspaper is a web platform developed for publishing and managing news within a community. The system allows registering users, publishing news, managing reports, and administering content from an organized interface.
- **Technologies:** HTML, CSS, JavaScript, PHP, MySQL (XAMPP).

- **Impact:** The project strengthened my skills in backend and frontend development, database management, validations, sessions, and structure of complete web systems.

Salary Calculator – El Salvador.

- **Description:** Web application that calculates net salary from gross salary, applying deductions for ISSS, AFP, and ISR according to the regulations of the Salvadoran Social Security Institute (ISSS), Pension Fund Administrators (AFP), and the Ministry of Finance (ISR).
- **Technologies:** HTML, CSS, JavaScript.
- **Impact:** Automates salary calculation and strengthened my skills in programming logic and frontend development.
